# Trademate Desktop Download

Trademate can easily be download by simply visiting <http://trademate.tradekey.com> and clicking on the download button.

<http://trademate.tradekey.com>

You can easily signin to trademate messenger by using your tradekey email address and password.

# Visitor Alerts

Trademate equips you with the ability to know every time a potential client is viewing your product, not only that it provides you with information about his country, the page he is viewing so that you always have that edge over your client.

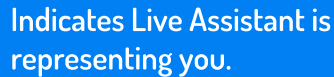

# Chat Alerts

If a visitor decides to talk and provides his contact details, you will immediately be notified by a chat window and that is not all, you will also receive details about his country and the link to the page or product he is viewing just to give you a heads up when getting engaged in a conversation.

An exclusive feature designed to expand your business by ensuring your online presence 24/7 . An agent will automatically represent you in your absence and will enlighten you ( through Tradekey Inbox ) about every conversation held while you were gone.

- » Logon to Tradekey.com
- » Click **Account Settings** Tab
- » Click **Install Website Traffic Monitor** button on the left panel at the bottom.
- » A form will appear, fill in your information that is missing and Click Show Script.

**Note: If all required information is not provided you cannot integrate Trademate to your site.**

- » Now you can just copy script from the box bellow and paste it on your site and enjoy our services.

# Online Widget

# Offline Widget

# Auto Messages

Automatic messages play a vital role in engaging conversation. Trademate is packed with both audio and text messages to help you get a better chance in engaging your visitor.

# Offline Inquiry Generation

The offline widget offers your visitor the ability to communicate even when you are offline. It allows the visitor to post inquiries when our user is not available.

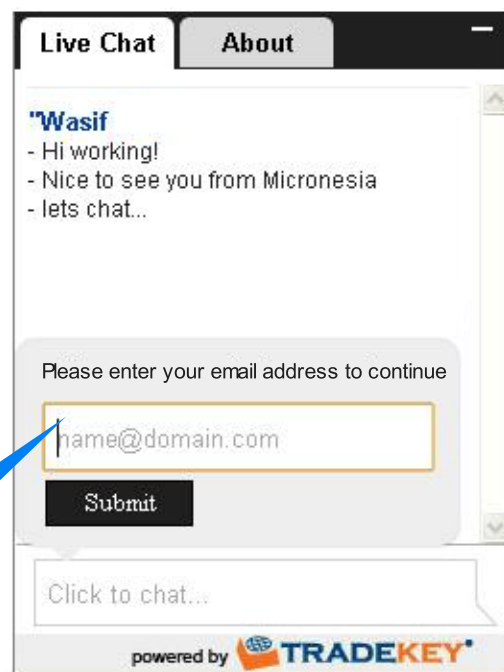

The user receives these messages along with the contact details so that he can get back to that potential client.

The image shows a screenshot of the Trademate offline inquiry form. The form has a header bar with 'Live Chat' and 'About' tabs. Below the header, the name 'Wasif' is displayed. The form contains three input fields: 'Email', 'Phone', and 'Message \*'. The 'Message \*' field is a larger text area. Below the input fields is a 'Send' button. At the bottom of the form is a 'Click to chat...' input field and a 'powered by TRADEKEY' logo.

# Visitor Contact Details To Chat

Whenever a visitor initiates's chat he has to provide his email address so that he can be contacted later. This enables the supplier to establish a close contact and keep in touch with his clients.

Type Your Email Address

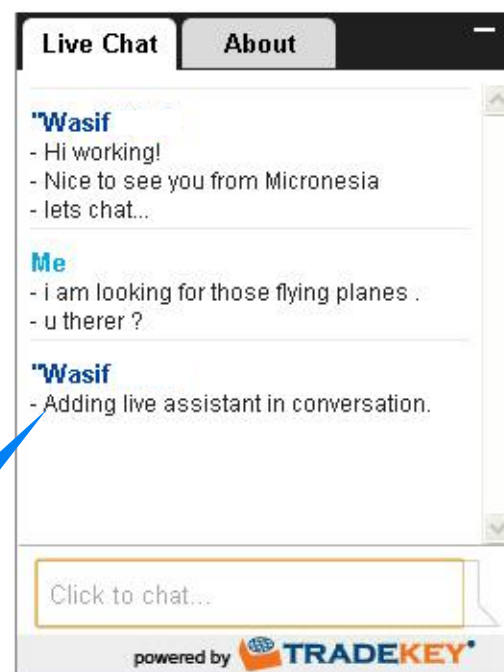

The screenshot shows a live chat window with a dark header containing 'Live Chat' and 'About' tabs. The chat history shows a message from 'Wasif' with the text: '- Hi working!', '- Nice to see you from Micronesia', and '- lets chat...'. Below the history is a form with the text 'Please enter your email address to continue'. The email input field contains 'name@domain.com'. A 'Submit' button is located below the input field. At the bottom of the chat window is a 'Click to chat...' button and a 'powered by TRADEKEY' logo.

# Automatic Assistance

Trademate increases your chances to seize a deal by not letting go of your potential client, when for some reason you were away or you didn't responded to an incoming message an agent will automatically be added to conversation (after 15 seconds ) and will talk on your behalf to make sure you never miss even a single client.
